

Very compact and light-weight (14 kg) scrubber dryer. An innovative and efficient alternative to manual cleaning of hard floors from 20 to 200 m². The floor is immediately dry after cleaning. It prevents slipping. The new battery-powered model is ideal for portable use. It guarantees clean and dry floors without any risk of tripping over a power cable when something needs to be picked up. Perfect for cleaning small shops, restaurants, gas stations, supermarkets, sanitary areas, for hotels or snack-bars. Also usable additionally to bigger scrubber driers for special tasks.

Standard accessories:

Details

Description

Due to the upright design, the machine is manouvrable like an upright-vacuum. Compared to a mop it has much more cleaning effort due to 10-times more contact pressure to the floor. This with a brush which spins with 1500 rpm.

The machine is drying forward and backwards.

For very sticky dirt, the squeegees can be lifted up by a foot pedal. The chemical can react more time. Cleaning is also possible under furitures or other objects due to the very low brush head.

Application

Very good for maintenance cleaning of all hard and soft floors, like natrual stone, tiles, PVC, linoleum or epoxy.

Features & Benefits

Float valve prevents water going through the turbine. It prevents damages to the turbine.

Light-weight and handy like a vacuum cleaner.

Fresh and waster water tank can be removed separately for refilling, draining or cleaning.

Food pedal for vacuum on/off for very sticky dirt.

Easy to maintain by quick change of brushes, squeegees or water distribution channel.
