Description

The NT 65/2 Eco Me is a powerful wet/dry vacuum cleaner with an exclusive Power Filter Clean system for constant high suction power and long periods of uninterrupted operation.

This unit features a compact fan housing with a separate filter cover for easy access to the large flat pleated filter. The filter is cleaned efficiently by the Power Filter Clean function (air pulses activated via remote control lever) to ensure high suction power at all times, longer periods of uninterrupted operation and a long filter lifetime.

The NT 65/2 Eco Me is equipped with an electronic level monitor which shuts off the suction when maximum capacity is reached during wet pick-up to prevent overflow. The clip system ensures simple and quick accessory changes.

There are on-board holders for the hose and accessories as well as a large tray-like surface on top of the unit for parking tools. Two large wheels and two castors, one with brake, make the NT 65/2 Eco Me highly mobile.

Application

This wet/dry vacuum cleaner is a particularly user-friendly unit suitable for universal applications in the crafts and trades, e. g. building and allied trades, automotive workshops and contract cleaners as well as the metal-working, chemical and pharmaceutical industries, in areas where a fully tested unit (safety-type vacuum) is not necessary.
