Clarke®

Cleaning Power Since 1916.

Twice the Productivity ... Half the Time

Wash & Rinse 18® –

Don't duplicate your efforts. Wash & Rinse® – The most effective one pass system available.

- Wash and rinse in one pass.
- Apply the chemical and rinse it out all in just one pass.
- Chemical metering – no mixing and no guessing.

1. **Solution is applied** before the brush.
2. **The brush scrubs** the carpet to emulsify and suspend the dirt.
3. **A Fresh water rinse** removes dirt and detergent.

Benefits of rinsing detergent out and removing abrasive soils:

- *Better appearance* - Removing the dirt from the carpet keeps it from looking dull and worn.
- *Lower cleaning costs* - Removing the detergent reduces re-soiling and keeps carpets cleaner.
- *Reduces carpet costs* - Removing the dirt and the detergent that attract soil extends the life of carpet.

Increase your Green Cleaning with Clarke® Certified Equipment.

- Wash & Rinse® - Precision metering of chemical and rinsing out the chemical in one pass saving chemicals, energy and time.
- ErgoEX® – Reduces strain and impact on the operator and increases productivity. A human factors analysis indicated that the addition of the ErgoEX® waist belt and increased handle height reduced operator shoulder stress, elbow stress, lower back stress and increases efficiency compared to an extractor without these features!

REDUCED STRAIN INCREASED PRODUCTIVITY

- Lower back by 18%
- Elbow by 60%
- Shoulder by 80%
- Operator Efficiency by 15%

TURN YOUR EXTRACTOR INTO A DUAL PURPOSE MACHINE

- Add the hard floor squeegee and turn your extractor into a cylindrical scrubber.
- Brush options available for hard floor and grouted tile.

The Clean Track series machines are classified by Clarke® as a green machine by reducing operator strain.

The patented ErgoEX® support belt allows legs to pull the weight of the machine instead of arms, shoulders and back. This improves production by 15% by reducing strain on the operator.

The Wash&Rinse® feature gets carpets cleaner by washing and clean water rinsing all in one pass. Carpets get cleaner faster and increases employee productivity.

Rugged PolyDur® housing and body

Clam shell frame design – easy access

Very quiet 67 dBA sound level

Overfill and debris protection

Variable solution control

Precision balanced easy handling

Large opening & clear sight dome

Independent dashboard controls

High dump drain into toilet or bucket

Easy fill – bucket or hose

Large tanks, longer run time – up to 13 gallons of solution

Integrated options – onboard spotting and hand tool

Large 10" non-marking wheels

No tools quick release vacuum shoe

No tool quick change spray jets

Independent self aligning recovery tool

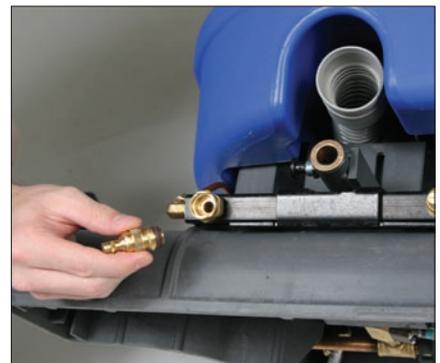

The 16 or 18 inch scrub brush can be removed and installed without the use of tools.

The vacuum shoe is designed with laminar flow technology allowing more moisture recovery, resulting in fast drying times.

The quick change hard floor kit option turns your extractor into a dual purpose machine. No tools required.

Quick change nozzle provides easy clean up and maintenance. The large opening dramatically reduces the potential for clogging.

Clean Track™

16 & 18 Carpet Extractors

Clarke®

Key Features

- Large capacities, small package
- Patented ergonomic design
- Very quite low sound level
- Drain into toilet
- Dual functionality with hard floor option

SPECIFICATIONS

	Clean Track 16	Clean Track 18	Clean Track 18 W&R
Part Number	56266000	56266001	56266002
Solution Capacity	8	13	13
Brush/Cleaning Path	16	18	18

Weight	116 lbs. (52.6 Kg)	119 lbs. (54 Kg)	121 lbs. (55 Kg)
Agency Approvals	cETLus Listed		
Warranty	Tanks - 8 Years, Parts & Labor - 1 Year		

*Patent Number: 6,968,594 B2

WHO USES THIS MACHINE?

- Public facilities
- Government and office buildings
- Airports, schools
- Hotels
- Universities, colleges
- Hospitals, nursing homes
- Cleaning contractors

WHAT DOES IT DO BEST?

- Cleans carpets faster
- Uses clean water to rinse soap out
- Increases operator productivity

WHAT MAKES IT EASY TO USE?

- ErgoEX® ergonomic extraction belt reduces effort, increases productivity
- Wash & Rinse® no-mix chemical system
- One pass cleaning - no additional rinsing required
- Easy and convenient operator controls

WHAT ENHANCES ITS PRODUCTIVITY?

- ErgoEX® reduces stress on elbow, shoulder and back. Less physical effort increases productivity 15%
- Wash & Rinse® automatic chemical injection system - no mix, no mess
- Dual functionality with optional hard floor tool kit

WHAT ADDS TO ITS DURABILITY?

- Rotationally molded PolyDur tanks
- 3-stage tangential bypass vacuum motor
- Automatic float shutoff

WHAT ARE THE SAFETY FEATURES?

- Reduced body strain
- C ETL US Listing standard on all models
- Safety - no open unsecured doors
- Hospital grade plug

WHAT ARE THE OPTIONAL FEATURES?

- Hard floor squeegee
- On-board hand tool/prespray
- Hard floor brush options
