# Our most manoeuvrable gas burnisher ...the Gas 20" for high efficiency coverage of medium to large areas.

## Fully featured, state-of-the-art burnisher

This compact high speed machine delivers 13 horsepower (and more\*) in a balanced, Operator-friendly package.

Smooth to operate and easy to use, the Gas 20" punches above its weight compared to other machines in its class.

All Australian-made, the Gas 20" has been specifically designed for Australian operating conditions.

## Power 'plus' - 2500rpm

High performance combined with ultimate reliability...the Gas 20" Honda motor comes in either 9.69 kw (13 hp) or the 11.19 kw (15 hp) V-twin version.

*\* An 14.17 kw (17 hp) V-twin Kawasaki unit is also available.*

## Single stage active vacuum system / floating skirt

The skirt is positioned within the machine body for greater protection as well as containing the dust so that the active vacuum system leaves the floor dust-free.

## Push-button, electric start

Easy starting every time from the 12 volt, long life battery.

## Over 120 Distributors in Australia, New Zealand and Worldwide

Every Polivac product is backed by a national and international network, so you can be confident of service, repairs or parts supply being turned around ...fast!

## Fully adjustable handle and throttle control

The ergonomically designed handle is adjustable and is fitted with a throttle control - right at the Operator's fingertips. It can also be folded down for easy transport.

## Bias control

This allows the Operator to easily align the machine to prevent any sideways drag - resulting in much smoother, easier operation.

## Powder-coated steel base for maximum strength and minimal cleaning

Built to last, the Gas 20" solid construction and highly durable finish ensures long life with maximum presentation.

## Easy access to belt and drive system

Ease of maintenance and servicing eliminates costly and unnecessary downtime.
